Morley Rugman

Nathan London

Nathan Miles

By Samantha Louise Robertson

by Scott Samuel Everett

ISIMBA
JOURNELL

ToFunni

Where is my hat?

oh no I can't find my hat

I will just have to wear a bowl.

Tilly

Brunel was famous man

He had A cardboard cut-out outside Bristol Museum

And At Weston-Super-MARE Beach

T.J.

7 steps to making your own comic

(This is just one way of doing it. Feel free to experiment!)

- | | |
|--------------------------------|--|
| 1 Plot | What happens in your story? Where does it take place? How does it start and how does it end? Who is the main character? |
| 2 Character design | What does your main character look like? You'll draw them over and over again, so it helps to work out what they look like from the start. |
| 3 Script | Use words to plan the pictures that will make up your comic. Who is in each picture, what are they saying and doing? |
| 4 Layout | Think about the box that each picture will be in. What size and shape will they be? |
| 5 Pencilling | Drawing the pictures in pencil, make sure it's clear what is going on. You'll need to leave room for the words too. |
| 6 Lettering | Speech balloons and thought bubbles show what people are saying and thinking. Captions are sentences that tell the reader what's going on. Sound effects make lots of noise! |
| 7 Inking | Finishing the drawings in black ink makes your comic look neat and clear. Don't forget to rub out your pencil lines! |
